([Natural News](#)) Barring some miracle, it looks like tomorrow, the US Congress and VP Mike Pence will betray America and shut down any objections to the Biden slate of electors from swing states where massive election fraud took place. In breaking news today, it emerged that VP Mike Pence may not be present tomorrow, and would be replaced by Sen. Charles Grassley, who would oversee the opening and counting of the electoral votes. There are still many

wildcards and moving pieces to the sh#tshow that will unfold in the next 24 hours.

We believe that the US Congress is incapable of following the Constitution. Over 90 percent of the members of Congress are treasonous criminals who are actively seeking to install CCP puppet Joe Biden in the White House, even if it means destroying the republic in the process. By the end of the day tomorrow, we will likely see Joe Biden confirmed (80% chance) as the president-elect.

This will leave America with just four remaining options:

1. Trump's legal team drops some sort of epic declassified documents that change the entire game, perhaps showing that Biden is actively working for the CCP, or rolling out Jeffrey Epstein's files that likely implicate a large number of members of Congress.
2. Trump invokes the Insurrection Act or some similar form of military authority, likely declaring the election to be an act of international warfare and citing new evidence from DNI Ratcliffe's report.
3. We the People rise up and stage an armed defense of the republic by carrying out mass arrests of treasonous criminals across the nation, including treasonous governors, secretaries of state, lawmakers and corrupt court judges.
4. Divine intervention. God intervenes in some way that resembles Chapter 14 of *Exodus* out of the Bible. But with America now descending into a cesspool of abortion, transgenderism and demonism, it's hard to see how God would grant mercy on this nation.

All the other options will disappear in the next day or so as Congress betrays America and votes to accept the fraudulent slate of electors for Biden. The SCOTUS option is a non-actionable, given that SCOTUS is run by an alleged globalist puppet pedophile named Roberts, [according to recent bombshell tweets from Lin Wood](#).

Here's what's covered in today's Situation Update podcast:

- Culture wars in America depict all White men as worthless, stupid, weak, incapable fools (while women save the world).
- Indy media has been infiltrated by CIA psychological operations manipulators.
- Trump is under siege and probably needs to be saved by the people, not the other way around.
- White House rumored to be flying the 1776 flag, which may be a call to arms.
- Estimated 80 million firearms were sold in the USA in 2020 alone. Guns and ammo everywhere...
- Pelosi, Pence, McCarthy and McConnell conspire for "backroom deal" to betray the nation and stab Trump in the back.
- Corsi reveals why fraudulent votes can't be "certified" by states that themselves are in on the criminal fraud. The states are part of the conspiracy and thus their votes must be tossed.
- Jenna Ellis suggests strategy for Pence to demand electoral votes be re-considered by state legislators.

- Northern Georgia US Attorney suddenly resigns. He covered Fulton County. Hmmm...
- Ivan Raiklin suggests McCarthy conduct a parallel House vote by state delegation, then send a competing vote back up to Pence (all this takes place after objections are raised to Arizona). Pence could then decide which vote from the House to accept.
- Why VP Pence (or now Grassley, possibly) could cite Ratcliffe's foreign interference as a reason to reject fraudulent electors.
- Matt Gaetz reveals the old GOP is dead, and the new GOP is the party of Trump. (Somebody please tell the old GOP geezers about this, because none of them have heard yet...)
- Charles Hugh Smith on the lifecycle of bureaucratic corruption and why America's government has devolved into a cabal of treasonous criminals whose primary function is to loot the nation from within.
- Sen. Loeffler now suddenly says she will object to the fraudulent electoral votes from Georgia, but it took her forever to get to this point. She is nothing more than a placeholder and has no spirit for liberty or freedom.
- Gohmert reveals the courts are so corrupt that the American people have no choice but to take to the streets.
- NY rolling out "covid camps" to through conservatives into death camps.
- D.C. Mayor dispatching the National Guard to try to block Trump supporters. This is the same mayor who did nothing when Antifa and BLM were committing acts of violence.
- Trump labels the GOP the "surrender caucus." And he's right.
- VP Pence sends out a tweet that's a confirmation he will do nothing. Spineless coward.
- Former Secretaries of Defense warn Trump not to invoke military authority... because they know he's going to. And he has the right to do so.
- Sen. Tom Cotton commits political suicide by refusing to object to fraudulent electoral votes, claiming Congress doesn't have the power to discern such things... a claim that's absurd and stupid, given that the Constitution specifically gives Congress this power to vote on the electoral results. (Another spineless coward.)
- Criminal traitor Raffensperger lied about ballots in Georgia. (No surprise.)
- Corrupt politicians in Georgia decide to delay and move the hearing into possible ballot fraud, because no one has any desire to see any actual evidence of vote fraud. (See no evil...)
- New analysis funded by The Epoch Times turns up 432,000 votes removed from Trump in Pennsylvania alone... systematic deductions throughout the night, all done electronically, all illegal. Massive criminal fraud, but the courts say no one in America has standing.
- Brian Kilmeade of Fox News says "no evidence" of voter fraud.
- Mysterious cyber investigations group concludes that Americans are preparing for war and must go to war to defend and restore their republic.
- Patrick Byrne reveals the discovery of a massive ballot fraud enterprise involving a printing company and a multi-state conspiracy to fill out large numbers of ballots for Biden, then transport them to the states where they are needed to "win."

- Boxes full of fake ballots found to contain a receipt from China, indicating they are also being printed in China.
- Lin Wood unleashes mega bombshells, revealing the world is run by a cabal of globalists who ensnare political leaders in pedophilia and child murder traps, all documented on video and used to blackmail them for life.
- The same scheme is also used in Big Tech, Hollywood and the music industry. If you don't rape a child, you don't get promoted or publicized.
